

On Wednesday July 1, New Mexico Governor Lujan Grisham, issued a health order requiring persons traveling from another state other than New Mexico by either air or car to self quarantine for 14 days upon entering the state. This effectively rendered the New Mexico sites for the Southwestern Zone inaccessible to out-of-state shooters.

In response, the New Mexico State Trapshooting Association met and voted to reschedule their State Shoot for Aug 27-30 with pre-squad available on July 5.
