CROSS REGISTRATION Cross registered targets shot at an ATA sanctioned event and submitted to the PITA will not be counted in the 5-club requirement for All Stars. ATA/PITA Letter of Agreement (For the advancement of shotgun sports) Whereas, the Amateur Trapshooting Association of America (ATA) and the Pacific International Trapshooting Association (PITA) both exist for the express purpose of promoting the safe and enjoyable conduct of the sport of trapshooting. Now, therefore, the ATA and the PITA enter this Letter of Agreement (LOA) to provide a vehicle to allow targets shot under the rules of the ATA and/or the PITA to be registered in each other's association, hereinafter referred to as cross-registration. This LOA is expressly intended to be applied only to those states and provinces who have both ATA and PITA state/ provincial associations who conduct annual state/provincial tournaments and the guidelines are as follows: 1. Neither association will sanction a tournament on a date that will conflict with the date of a tournament previously granted to another club or association in close proximity. "Close proximity" will be defined on a state/ province by state/province basis. 2. The host club will present either an ATA or PITA sanctioned event with shooters having the option of their scores recorded by the other association. Shooters must be a current member in good standing, of each association, pay the daily fees of both associations, plus state/provincial association fees. 3. The rules of the host association will be accepted for cross registration. Earned yardage will be awarded according to the rules/ earned yardage chart of the host association and will apply directly to all cross-registered targets. Therefore, shooters cross-registering targets that earn yardage will have both their ATA and PITA cards punched accordingly. By cross-registering targets, shooters agree to accept the yardage increase criteria of the host association. If a score of 96 does not earn a punch in a PITA shoot, an ATA shooter cross-registering will have his/her ATA card punched to reflect a half yard increase. 4. Cross-registered targets will be used in computing the shooter's average.
