As to Length of Residence Required in a State to Compete in State Tournament.

The new revised rules of the A. T. A., cover a question that has arisen in times past as to the length of time necessary to live in a state before becoming eligible to compete in the state shoot. The matter is fully covered for all time, the ruling being that six months' bonafide residence in a state or province is necessary in order to qualify a shooter to compete as a resident.
