HOW IT WORKS

- Attach to the accessory rail; works with live fire, dry fire, airsoft, CO2
- Install smartphone app. Pair with device via Bluetooth
- Evaluate shooting performance, identify areas of improvement, & track progress over time

Other features

- * Training modes
- * Create shooting league virtually on your phone
- * Create public or private groups
- * Gives possible causes such as tightening fingers, etc.
- * Allows reconnection between dry & live practice
